Chapter 2. Getting Started with Photoshop CS2 A professional computer screen is a very large one. It has room for a lot of information and offers many easy options to make this

information easier to visualize. To help you get the most from your Photoshop experience, this chapter provides basic guidance on the controls and programs available on the Photoshop workspace.

You also learn how to use the new features in Photoshop CS2 to make better-looking images. For example, you learn how to choose colors, apply color-grading tools to automatically convert the colors to a specific hue, and use

---

effects for even more creative control over color. The chapter also explains how to manipulate the image in the background. Plus, you learn how to use on-screen guides and layers to help you plan out your image. # Understanding the Photoshop Workspace As you know by now, the Photoshop workspace is divided into three panels: the Background, Layers, and Toolbox windows. You access the workspace by

---

clicking the little square in the top-left corner of the Photoshop workspace.

This "Applications/Photoshop CS2/workspace" folder is linked to the Photoshop program, and you always access it through the toolbars at the top of your Photoshop window (see Figure 2-1). Figure 2-1. The Workspace is divided into three areas: the Layer, Toolbox

Sexual harassment: Sweden weeps as rights activists deliver hundreds of signatures Published duration 10 December 2017 image copyright Reuters image caption Actor Lena Kallström (L) is also the spokeswoman for the new feminist group Women's Rights Action League Activists in Sweden have gathered more than 700

signatures to call on the Swedish government to introduce new gender equality laws. The activists have mounted a campaign entitled "We demand laws against sexual harassment". More than 200 women from all walks of life have signed a declaration urging action. The government recently proposed five measures to reduce sexual offences but has yet to give them the green light. It is

---

widely anticipated that, if adopted, the proposed laws would allow for imprisonment up to three years for perpetrators who continue to offend against women or girls. The demonstration, which took place in central Stockholm's main square, was led by singer and songwriter Loreen, who carried a microphone and dangled a pink balloon at the event. Organised by Women's Rights Action League, an

---

umbrella group for feminist activists, the event also saw participants brandishing red paint and chanting slogans like: "We don't have to put up with it!" Actor Lena Kallström, who had been chosen to be the group's spokesperson, told news agency TT that "women are fed up with the current situation". "No-one has gone to jail," she added. The activist group Feminist Initiative has signed the declaration, but

not to call for specific laws, but to urge the government to progress with the proposed legislation, which was presented by justice and equality minister Morgan Johansson in April. He said that while recent figures showed a fall in rape cases, the problem was not solved. Sweden has the highest number of rape cases in the European Union, according to official statistics. image copyright AFP image caption The

Quality of life in head and neck cancer patients: the impact of angiogenesis and hypoxia markers. Few studies have been conducted in order to identify quality of

---

life (QOL) and tumor markers in head and neck cancer (HNC). The aim of this study was to investigate the correlations between QOL in patients with HNC and tumor markers as well as the relationship between QOL and microenvironment. Patient were divided into the groups of 80 HNC patients who were receiving surgical treatment and 64 HNC patients who were waiting for surgery. QOL was measured with the

---

EORTC QLQ-C30 and QLQ-H&N35 questionnaires. Tumor markers such as vascular endothelial growth factor (VEGF), hypoxia inducible factor (HIF) and type 1 tumor necrosis factor (TNF) were investigated. The QOL of patients who were receiving surgical treatment was higher in 2 domains of the QLQ-C30 questionnaire. In the QLQ-H&N35 questionnaire, quality of social relations was higher in patients who were

---

awaiting surgery. Tumor markers such as VEGF and HIF were correlated with QOL in the patients who were receiving surgical treatment. In conclusion, tumor markers can affect QOL by influencing microenvironment. Furthermore, tumor markers, which are related to angiogenesis and hypoxia, could affect QOL.

prince du royaume mondain), il existait en 1625 deux États dirigés par des parlements républicains, plutôt braves, et un autre dirigé par des huguenots, plutôt collabos. Toupet, un dernier dernier roi d'Ys avait préconisé la Réforme. C'était dans ce contexte que son chef de corps de garde de Montréal, le baron de Sainte-Pierre, avait été menacé de torture et de décapitation dans les avant-postes où il se trouvait.
